Uniform Progress

The progress of uniforms in NHS has been wonderful. Back in the summer of 2004 the county and school board had come up with a meeting about which school should wear uniform.

We were one of the runners up to be the first school with uniforms and some parents of the students of Northwestern High School came up and gave their opinion on the uniform issue.

The final decision was to enforce the uniform among Northwestern students. Many student,

were upset but some actually enjoy the fact that their wearing uniforms. Ms. Williams a current student of Northwestern High School said that actually save her big money over the year on clothing, so she really enjoy the new rule. . Students are complying with the rules in a mature and responsible way. The uniforms are navy pants, a white polo with a black belt and black or white shoes. The shirts had to be tucking in. Students are wearing it properly every single day. The

uniform was being worn so perfectly that Mr. Thomas the principle decided that we didn't have to tuck our shirts in anymore. Students everywhere jump for joy. Some student has even put their on little touch on as you will see below. I will even say that some get creative that you wouldn't sometime think that they were in

Special points of interest:

- TO INFORM PARENTS ON THE PROGRESS ON THE UNIFORMS
- HOW STUDENTS FEEL ABOUT THE UNIFORMS

- their uniform, but they are. So the uniforms was a real great idea and I know the parents can agree with me on that cause they just have to pay for three- four pairs of uniforms so that like a couple hundreds dollars that you save from buying cloths all year. So the students at Northwestern High School would say thanks to those parents who voted for the uniforms. THANKS AGAIN!!!!!!
